To Whom It May Concern,

I have been using the Dennis Piper and Associates as my accounting firm for six years. The service I have received has been excellent and prompt. Dennis is the reason my company purchased Quick Books as our accounting software. I purchased the software through Dennis and they did the installation and they provide the support. This has been an invaluable service. I can receive answers by phone, e-mail or a visit to my office with little or no down time for my office staff. For the last few years Rachel Keck from Dennis Piper and Associates has been my go to person. We always have lots of questions and problems for Rachel to solve. Rachel has been able to give us resolution quickly and provide us with tools to help run our business with good accounting information using the reports Quick Books provides. Rachel is almost like a part-time employee here, we use her so much.

The fees that I am charged for the different services Piper provides have always been fair and competitive. I have peace of mind knowing that my taxes are handled professionally and with a complete understanding of my business and the tax laws that affect me.

I like dealing with the people at Dennis Piper and Associates because I am always treated as a valued customer.

Yours truly,

Susan Sciaretto, President
